

# Handybar

The Handybar makes getting in and out of your vehicle easy. Just slot the Handybar into the door lock and it creates a secure, stable handle to help you steady yourself.

This is an essential piece of equipment for anybody who finds it difficult to get in and out of their vehicle due to physical challenges, and fits onto almost any vehicle.

The Handybar helps you to maintain independence and travel safely wherever you go.

## Benefits of Handybar

### Safe Leverage

Once the Handybar is slotted into the door lock it forms a strong handle which will support your weight so you can push yourself up. The Handybar has no weight limit, and the door lock is a very strong component of the vehicle, so your safety is assured.

### Works in Almost any Car

The Handybar works in the door lock of almost any vehicle. If your vehicle has a u-shaped lock the Handybar will fit into it.

# See 4 Safety

The See 4 Safety helps you to navigate the night in safety and with confidence.

The See 4 Safety light clips easily to any walker, frame, rollator or wheelchair tubing.

It switches on automatically when the sensor detects low light conditions and movement, and switches off when movement stops or light conditions improve.

## Benefits of See 4 Safety

### Automatic Switch on/off

The See 4 Safety light switches on automatically in low light conditions when movement is detected, and switches off when movement stops after 30 seconds. This means there are no switches to find in the dark, and battery life is preserved.

### Clip Grip

The clip of the See 4 Safety light has a rubber grip to fasten onto walkers and frames securely, and fits onto a large range of tubing sizes.

### Hands-free Use

The See 4 Safety light does not need to be touched to be activated or switched off, making it perfect for users with limited mobility or bad memories..

1 x AAA battery included.

# Penco Walker Glides

Penco Walker Glides make your walker easier to manoeuvre, and are appropriate for indoor or outdoor use. Just fit the Walker Glides to the back posts of your wheeled walker, tighten the bolts and you're ready to go.

## Benefits Penco Walker Glides

Walker Glides will fit both 7/8" and 1" diameter walker tubes and are fitted with rust-proof stainless steel tightening bolts.

From carpet to concrete, these work, so you don't have to.
