

Assistive Technology Specialist

Would you like your work to contribute to the improvement of the lives of those with disabilities?

Are you someone who is very approachable, patient, and great with kids?

Do you enjoy problem solving?

If you can answer yes to these questions, then we have a rewarding customer support focused role for you.

BES Healthcare Ltd specialises in providing market-leading services, assistive technology, and equipment sourced from around the world to improve the health of individuals across the UK, directly or indirectly.

BES sources innovative and quality Rehabilitation products from around the world and uses a consultative and educational approach to selling these products around the UK. More recently BES has broadened its offering by producing their own seating, standing, and bathing products primarily for the paediatric market.

We are looking for an Assistive Technology Specialist to join our Assistive Technology team in the North West of England. The Assistive Technology Division's customer base is focussed upon the professionals and services which assess and/or prescribe equipment for individuals with disabilities.

The day to day work revolves around working with our customers to find solutions to their problems through working with and supporting clinicians (primarily occupational and physiotherapists). Our Assistive Technology Specialists perform assessments and fittings and undertake Consignment checks on a regular basis, alongside training and demonstration activities. They work in collaboration with our Business Development Managers whose role it is to work at the senior levels of our customers' organisations ensuring we are their first choice wherever appropriate.

Skills and Experience

It is desirable that candidates have a good understanding of human anatomy and have experience of working with clinicians within the NHS, however we're interested, equally, in hearing from candidates who are driven and are quick learners with transferable skills from another background.

Candidates need to be computer-literate, must be willing to work in a field-based environment, staying away overnight on occasion. Applicants must hold a full driving licence.

We are looking for someone with:

-  Exceptional organisational skills
-  Good presentation skills
-  Good communication skills
-  Good self-discipline
-  Self-motivation
-  A desire to achieve

The way we work

We look for people with skill and aptitude, and work with them to help them learn and apply knowledge. Our company has a friendly working environment, providing every opportunity to excel. We also provide support for any member of staff who wants to further themselves through further education.

We will provide you with a company vehicle, phone, and laptop so you can carry out your role effectively. You will be enrolled into the Company's pension scheme after a deferred period.

We offer a competitive starting salary, with a performance bonus scheme.

To apply, please send your CV and a covering letter telling us why you are an ideal candidate and what you feel you will bring to the role to: nth@beshealthcare.net

The job starts as soon as you can.
