

# Free-of-Charge Postural Management Training Week

BES Healthcare Ltd is organising a training week in the UK and Ireland across 13<sup>th</sup> – 16<sup>th</sup> January 2020. We will be bringing over world-class trainer, clinician and Physiotherapist Bart Van der Heyden, who specialises in the field of seating, wound care and mobility, with 25 years' experience.

## Our training days will focus on 5 main topics:

1

**Considerations around 24-hour postural management:** The importance of thorough assessment and evaluation and providing the complete solution.

2

**The significance of planning and devising a strategy when considering 24-hour postural management:** Where does shear fit into the overall picture? What is best practice?

3

**Finding the right solution vs managing the problem:** Everyday challenges faced by healthcare professionals.

4

**New Developments in the understanding of pressure, shear, and friction:** What is their relationship and which one causes the most damage?

5

**New and innovative technologies that can help measure the effects of shear:** The benefits of using them and how they can assist with clinical decisions and improve outcomes.

During these interactive and informal Training Days, clinicians will have the opportunity to discuss complex scenarios with their peers, challenge current processes, and discuss best practice to achieve optimum outcomes. These training days are free of charge and include lunch and refreshment.

Spaces are limited, so please book in advance.

## Bart Van der Heyden, PT

Bart has specialized in the field of seating, wound care and mobility for the past 25 years. After studying physical therapy in Gent, Belgium, he gained experience in Germany providing seating and therapy for children with Cerebral Palsy. After working in a rehab setting in the USA he offered clinical consultations to wheelchair users, clinicians and manufacturers worldwide. He has also started a physical therapy practice with his wife in Belgium.

Bart has developed multiple training courses and workshops on skin management, seating assessment, seating techniques & interventions for different user populations. He has presented for seating specialists all over the world and he developed a seating approach for clinical problem solving and maximizing outcomes.

Bart is known as a skilled and experienced clinician and presenter with a global, hands-on and multi-disciplinary view on clinical practice and seating.
