

Universal Elastic Strap and Strap Extension

The Bodypoint® Universal Elastic Strap has always been known for its versatility of use as a trunk support, abdominal support or a positioning tool for therapists and carers. With the demand and need to have larger and longer Universal Straps, Bodypoint® has now introduced an Extra Large size, and detachable extension accessories that can be easily attached to the Universal Straps to increase length.

| Universal Elastic Strap | | | |
|-------------------------|-------------|-------------|--------|
| Size | Width | Length | Code |
| Small | 3.0" (8cm) | 56" (142cm) | 180553 |
| Large | 4.5" (11cm) | 56" (142cm) | 180799 |
| X-Large | 6.0" (15cm) | 56" (142cm) | 101411 |

Benefits of the Universal Strap

Versatility

The Universal Strap can be used to cater to multiple support needs in different areas of the body.

Ease of Use

The strap has an easy-grab end tab with a thumb loop, which makes it easy to use, remove, and adjust, irrespective of the level of hand function.

Durability

The Universal Strap is manufactured with high stretch durable neoprene, and can easily be trimmed to the desired length for individual needs. Trimming the elastic strap will not lead to fraying.

NEW Strap Extension

The NEW Strap Extensions give added length while retaining the features of the original Universal Elastic Strap. The extension accessory simply attaches to the hook-and-loop closure at the end of the Universal Elastic Strap, extending its overall length. The thumb loop end hooks onto the end of the extension accessory to secure the Universal Elastic Strap in place.

| NEW Strap Extension | | | |
|---------------------|-------------|----------------|--------|
| Size | Width | Length | Code |
| Small | 3.0" (8cm) | 28.5" (72.5cm) | 182397 |
| Large | 4.5" (11cm) | 28.5" (72.5cm) | 182465 |
| X-Large | 6.0" (15cm) | 28.5" (72.5cm) | 181789 |

Rapid-Dry Belts

Safe and Secure to use in the Bath or Shower

The bathroom is commonly regarded as the most dangerous room in the home. Bath and shower safety is a major concern to people with limited mobility, but most shower chairs and baths do not come equipped with safety belts to prevent slipping or falling. Rapid-Dry Belts from Bodypoint® provide safety without compromising the comfort and health of the user. These belts are manufactured from Aeromesh® - a breathable and quick dry fabric, and can be used across the chest, abdomen, knee and legs, in a bath or shower. This fabric

allows water and air to pass through it easily, making sure the client is bathed completely, and the belt dries quickly after use.

These belts are flexible to use in a bath or a shower, and can be mounted securely on the shower chair or bath with the help of grommets or plastic slides. Grommets are spaced out for length adjustments, and are manufactured with corrosion resistant stainless steel. Rapid-Dry belts are easy to remove with the help of side-release buckles for cleaning.

Rapid-Dry Belt - Options

One-piece: This option has padding in the centre, which allows for greater comfort. In this design there is one Bodypoint® side-release buckle on each side. This helps to keep the belt mounted to the chair, when only the centre piece requires removing or washing. The belts are available, with either grommets or plastic slides for mounting purposes.

Two-piece: This option has a Bodypoint® side-release buckle in the middle, that is useful when caregivers need to remove the belt for transfers without tampering with its adjustments. The belts have grommets for mounting purposes.

One-piece with Grommets

| Type | Size | Code |
|------------------------------|---------|--------|
| With Grommets (no clamps) | Large | 183073 |
| | X-Large | 182915 |

Two-piece with Grommets

| Type | Size | Code |
|------------------------------|--------|--------|
| With Grommets (no clamps) | Medium | 159795 |
| | Large | 165321 |

One-piece with Plastic Slides

| Type | Size | Code |
|---------------------|---------|--------|
| With Plastic Slides | Large | 184209 |
| | X-Large | 184131 |

Optional Extras - Mounting Clamps

| Type | Size | Code |
|-----------------|------|--------|
| Mounting Clamps | 22mm | 145453 |
| | 25mm | 145767 |
